Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.According to researchers, the body's failure to produce specific enzymes is the cause of many illnesses and diseases. It is never too early nor too late to improve your health and extend your life. The human body is amazingly resilient. It can repair itself by getting rid of damaged cells and replacing them with healthier ones. Even a slight change in lifestyle can have major impact on weight and health. The inclusion of a regime of the natural enzymes recommended in our book could remarkably accelerate the rate your body heals and repairs itself. Understanding how your body works and Taking Control of Your Life(c) are the first steps toward wellness. More than 50,000 enzymes are responsible for every function in the human body. Each enzyme is created for a special purpose and comes with a specific characteristic and unique function starting with opening your eyes in the morning to putting your head to rest on your pillow at night. Children are born with a full bank of enzymes and continue to produce enzymes throughout their childhood and adolescent years before the aging process takes hold. As people age, the production of enzymes either slows or stops entirely causing illness and disease. Other have a genetic defect that inhibits the production of enzymes causing diseases such as Crohn s, MS and ALS. Arthritis is the most common cause of disability in the U.S. By 2011, an estimated 60 million adults will have episodes of arthritis. By 2020, the number will reach 79 million. More than 3 million people admit to suffering from gout in the U.S. alone. More than 5 million people suffer from Crohn s...
