Createspace Independent Publishing Platform, 2014. Paperback. Condition: New. Language: Spanish . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.El desarrollo de software es una actividad diferente de toda la industria construida desde los tiempos de la revolucion industrial. Las practicas comunes en otras areas de la ingenieria son ineficientes para el desarrollo de Software ya que un proyecto de software necesita un control empirico sobre el proceso. El software es un producto empirico, por lo que es un error adoptar procesos prescriptivos rigidos en proyectos de software, en cambio las metodologias agiles reconocen la naturaleza empirica del software y estan preparadas para acoger los cambios frecuentes, ofrecen rapidez para realizar los cambios idoneos a partir del feedback de los usuarios y se presentan con metodologias leves, enfocadas al software funcional en vez del formalismo y de la documentacion extensa.
