Vedic Mathematics for Schools, Book 1 (The Curious Hats of Magical Maths)

By James Glover

Motilal Banarsidass Publishers Pvt. Ltd., 2015. Hardcover. Condition: New. First edition. The Curious Hats of Magical Maths is an introductory workbook on Vedic Mathematics. It leads you into unique, enjoyable and very quick methods of working with numbers. There are full descriptions of these methods together with worked examples for you to follow and plenty of practice exercises. This is a workbook and you can write your answers into the spaces provided. You will find the answers at the back of the book to check your work. The problems and methods are suitable for any age but probably most apt. The aim is to introduce some of the Vedic mathematical techniques and not to cover the whole of the mathematics syllabus for 11-13 year olds. So the book can be used for support material, extension material or simply by those wishing to find fast techniques for solving problems. This book is designed for young and old who might enjoy learning and practising the Vedic methods of Mathematics. Vedic mathematics is unconventional and not very well known and so readers are invited to be open-minded in their approach. The system uses the nature of number and natural mental processes to provide quick...
