FLATNESS BASED CONTROL OF DISTRIBUTED PARAMETER SYSTEMS

Shaker Verlag Jan 2003, 2003. Taschenbuch. Condition: Neu. Neuware - Ever growing performance requirements as well as new technologies require an increasing number of control systems being designed on the basis of mathematical models comprising partial differential equations or time delays. These classes of models, and control methods adapted to them, may be expected to play an important role in high-technology applications in the next few years, similar to what happened for nonlinear systems and nonlinear control in the last..
