Excerpt from The Rhododendron, 1978-79, Vol. 57 Under the direction of Dr. William Paul, the Mathematical Science Department at asu has developed a diverse program, applicable to many students. We offer a number of service courses to other departments and junior colleges. Mathematical science touches a lot of bases. For example we have calculus courses required for not only math majors, but Biology, Physics, Chemistry, and Business Economics majors as well. Dr. Paul is especially proud of the progress of the development of a graduate program in applied mathematics to compliment an already existing program in junior college and secondary education. Today there are more teaching open ings in math than there are teachers to fill them. Whereas mathematical science teachers were steered away a few years back, now anybody who really wants a job can get one.
