Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from A Treatise on Physical Chemistry, Vol. 1 of 2: A Co-Operative Effort by a Group of Physical Chemists An adequate treatment of the subject of modern physical chemistry for the advanced student is a difficult task for any one person. The ever-widening scope of the subject, its extension into domains which, even a decade ago, were as yet unknown or unexplored, demand qualities of broad scholarship on the part of an author which are largely incompatible with the call for specialized endeavor in other phases of his work. The present treatise on physical chemistry represents, therefore, a cooperative effort on the part of a number of physical chemists to cover generally the major portions of their science by contributions in those portions of the subject which their particular inclinations have led them more especially to study and to which they themselves may have contributed by their own effort and research. It is hoped that, in this way, a more authoritative treatment of the several branches of the subject may have been achieved; perhaps, also, a fresher exposition of the subject in its various phases may have been realized. Through cooperation, it should have been possible to secure a more up-to-date record of the present status of the science, since the time consumed in the preparation of such a treatise can obviously be reduced beyond the limits which must be demanded by a single author. Furthermore, where labor is shared a more frequent revision can be more easily achieved. Cooperation in the present undertaking has been freely and generously given. The editor wishes to express, therefore, his gratitude for such assistance. The responsibility for the plan of the book must rest with...
