

The Smart Growth Manual: New Urbanism in American Communities

Filesize: 6.74 MB

Reviews

Here is the finest publication we have read right up until now. It is actually written in easy words instead of difficult to understand. Its been written in an remarkably easy way in fact it is only right after i finished reading this book in which basically changed me, modify the way i really believe.

McGraw-Hill Education - Europe, United States, 2010. Paperback. Book Condition: New. 208 x 140 mm. Language: English . Brand New Book. Everyone is calling for smart growth.but what exactly is it? In The Smart Growth Manual, two leading city planners provide a thorough answer. From the expanse of the metropolis to the detail of the window box, they address the pressing challenges of urban development with easy-to-follow advice and broad array of best practices. With their landmark book Suburban Nation, Andres Duany and Jeff Speck set forth more clearly than anyone has done in our time the elements of good town planning (The New Yorker). With this long-awaited companion volume, the authors have organized the latest contributions of new urbanism, green design, and healthy communities into a comprehensive handbook, fully illustrated with the built work of the nation s leading practitioners. The Smart Growth Manual is an indispensable guide to city planning. This kind of progressive development is the only way to fully restore our economic strength and create new jobs, new industries, and a renewed ability to compete in the first rank of world economies. -- Gavin Newsom, Mayor of San Francisco Authors Andres Duany, Jeff Speck, and Mike Lydon have created The Smart Growth Manual, a resource which not only explains the overarching ideals of smart growth, but a manual that takes the time to show smart growth principles at each geographic scale (region, neighborhood, street, building). I highly recommend [it] as a part of any community participant s or urban planner s desktop references. -- Planetizen Top 10 Books -- 2010 On the ninth annual list of the ten best books in urban planning, design and development: The goal of The Smart Growth Manual is clear from page 1: to create a guidebook for smart growth following...
