Reviews

Here is the finest publication we have read right up until now. It is actually written in easy words instead of difficult to understand. Its been written in a remarkably easy way in fact it is only right after i finished reading this book in which basically changed me, modify the way i really believe.

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1902 Excerpt: .that the dip from here to Bayou Negreet is about S. 200 W., 1:60, and I have used this dip except where very pronounced local evidence indicated that it should be slightly modified. Outcrops from Logansport to Hamilton.--At Logansport 3 to 4 feet of dark sandy clays, with limestone concretions, overlaid with light colored, ironstained sandy clay is exposed in a small bluff near the railroad bridge. A few feet of lignitic clays are exposed near water level, beneath beds of light colored sands, at a number of points between Logansport and Hart s bluff, viz: at 1,2 and 4 Plate XXXII. Hart s bluff at its upper end has an extreme height of about 60 feet above low water. Here the face-of the bluff is much complicated with land slips and shows little besides a covering of light grey and yellow sandy clays containing rounded ferruginous gravel, and apparently identical with the bottom deposits into which they grade on the northern side of the bluff. At the lower end of the bluff the following section is shown: Section at Hart s Bluff Feet In. 1. White and yellow sand 28 o 2. Many colored chert and quartz pebbles with rolled pieces of petrified wood o 6 3. Lignite of good quality o 9 4. Finally laminated drab colored clay with lighter sand partings 1 o 5. Sand o 6 6. Same as 4 containing at base, layer of light brown claystone concretions 3 o 7....
