Excerpt from Instructions for Observing the Total Solar Eclipse of July 29, 1878. The following suggestions are intended to direct the attention of persons who may witness the total solar eclipse of July 29, and who may desire to co-operate with the United States Naval Observatory, to some of the phenomena which, in the present state of science, it is most desirable should be carefully observed on that occasion. In writing these suggestions, much assistance has been derived from the instructions issued to the government eclipse expeditions sent out by various nations during the last ten years; and free use has also been made of the reports of these expeditions.
