

On the Adjustment and Testing of Telescopic Objectives (Classic Reprint)

By T Cooke Sons

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from On the Adjustment and Testing of Telescopic Objectives Encouraged by the favourable reception accorded to our little book, On the Adjustment and Testing of Telescopic Objectives, in the printed reviews, and in many private letters received from astronomers, and as attested by the fact that it has been deemed worthy to be translated into German by Dr. Rudolph Straubel, of Jena, and into Italian by Prof. Tacchini, we have thought ourselves justified in preparing a second and enlarged edition. Since the date of publishing the first edition, in the summer of 1891, Mr. H. Dennis Taylor, our optical manager, has entered into many calculations and experiments on our behalf, with a view to the further improvement of the so-called achromatic telescope, with the result that we were able, in the spring of 1894, to offer to astronomers an entirely new objective, practically free from secondary colour aberrations, and capable of being used for celestial photography without any special adjustment. Seeing that our new Triple Photo-Visual Objective is rapidly supplanting the old double form, we have...

Reviews

A must buy book if you need to adding benefit. I am quite late in start reading this one, but better then never. You may like just how the article writer compose this ebook.

-- Prof. Elliott Dickinson

Extensive information! Its this type of excellent study. I have read and i am sure that i will gonna go through yet again once more down the road. Once you begin to read the book, it is extremely difficult to leave it before concluding.
