Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Notes on Education: A Practical Work on Method and School Management This book has been prepared more especially for the use of Normal School students. Hence some portions of it are outlines and jottings, rather than full exposition; the necessary unfolding of details being left for oral work in the class-room. Indeed, the book is, for the most part, a collection of Notes which, for several years past, have formed the basis of class lectures. The hope is indulged, however, that the treatment of the various topics is sufficiently clear to render the book suggestive and helpful to such teachers as may wish to gain professional knowledge and skill by private study and self-criticism. The writer makes little claim to originality of ideas on the subjects presented. He has not aspired to invent a new education, or to discover new ways of arriving at the old. His aim has been to present briefly those methods of teaching and management which have been followed by successful educators, and which have been, to some extent, verified by his own experience.
