MODEL BASED INFERENCE IN THE LIFE SCIENCES : A PRIMER ON EVIDENCE

Springer-Verlag Gmbh Jun 2010, 2010. Taschenbuch. Condition: Neu. Neuware - This textbook introduces a science philosophy called 'information theoretic' based on Kullback-Leibler information theory. It focuses on a science philosophy based on 'multiple working hypotheses' and statistical models to represent them. The text is written for people new to the information-theoretic approaches to statistical inference, whether graduate students, post-docs, or professionals. Readers are however expected to have a background in general statistical principles, regression analysis, and some exposure to likelihood...
