Environmental Design (Paperback)

By -

Taylor Francis Ltd, United Kingdom, 2006. Paperback. Condition: New. 3rd Revised edition. Language: English . This book usually ship within 10-15 business days and we will endeavor to dispatch orders quicker than this where possible. Brand New Book. Written and edited by a team of specialists at Max Fordham LLP, one of the UK s leading environmental and building services engineering consultancies, Environmental Design is the result of their extensive experience in designing environmentally-friendly buildings. The principles of their approach, which they have taught in numerous schools of architecture and engineering, are clearly presented here. The book starts with some basic scientific principles and environmental issues and then moves on to site planning, energy use, materials and building form. Natural ventilation systems, high-efficiency mechanical equipment and alternative energy sources are also covered. State-of-the-art buildings of exceptional quality are incorporated throughout the text and illustrate the authors belief that environmentally responsible architecture can be visually exciting. They conclude with a selection of detailed case studies of award-winning projects - including, new for this third edition, Beaufort Court, King s Langley and the National Trust Headquarters, Swindon. This book is essential reading for architects, engineers, planners and students of these disciplines.
