Canadian College of Naturopathic Medicine Press. Paperback. Book Condition: new. BRAND NEW, Healing Diabetes: Complementary Naturopathic and Allopathic Treatments, Michael Friedman, Alexander McLennan, Prevention and treatment of late-onset (type 2) diabetes has become a medical priority due to the near epidemic of this disease in recent years. Once considered a disease of the elderly, non-insulin dependent diabetes is now common among the middle-aged and even children, the product of our poor diet, lack of exercise, and chemically polluted environment. However, naturopathic medicine, using optimum nutrition, botanical medicine, and lifestyle counselling, offers safe and effective therapies to prevent and treat diabetes type 2 naturally, even to reverse diabetes type 1 when diagnosed early. This book provides an in-depth and fully-documented study of the pathophysiology of diabetes and the naturopathic medical care of this condition. Ideal for high-risk individuals and patients looking for greater depth of understanding than offered in 'pop' diabetes books. For the healthcare practitioner, "Healing Diabetes" comes complete with well researched diagnostic and therapeutic protocols and case studies.
