Reviews

This pdf may be worth getting. It is actually written in straightforward words and not difficult to understand. You will not feel monotony at any moment of your respective time (that's what catalogs are for about should you request me).
(Miss Golda Okuneva)

A TEXTBOOK ON SURVEYING AND MAPPING VOLUME 2

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1898 Excerpt: .mentioned before, this figure occupies two spaces of the plate. The diameter of the cylinder is 3, the pitch is 2, and a turn and a half of the helix is to be shown. The rectangle FB D is a side view of the cylinder, and the circle 1 , 2 , 8 , 4 , etc. is a bottom view. It will be noticed that one-half of a turn of the helix is shown dotted; this is because that part of it is on the other side of the cylinder, and cannot be seen. Lines that are hidden are drawn dotted. Draw the axis O A in the center of the space. Draw FD 3 long and 4 from the top border line; on it construct a rectangle whose height FB = 3. Take the center O of the circle 2f below the point H on the axis A O, and describe a circle having a diameter of 3, equal to the diameter of the cylinder. Lay off the pitch from B to 12 equal to 2, and divide it into a convenient number of equal parts (in this case 12), and divide the circle into the same number of equal parts, beginning at one extremity of the diameter 12 O 6 , drawn parallel to B E. At the point 1 on the circle divisions, erect l -l perpendicular to BE; through the point 1 of the pitch divisions, draw 1-1 parallel to B...
